## **Independent Auditors' Report**

Board of Directors  
Lawrenceville Plasma Physics, Inc.  
D/B/A LPPFusion, Inc.  
Middlesex, New Jersey

We have audited the accompanying financial statements of Lawrenceville Plasma Physics, Inc. (D/B/A LPPFusion, Inc.), which comprise the Balance Sheet as of September 30, 2019, and the related Statements of Operations and Accumulated Deficit and Cash Flows for the year then ended, and the related Notes to the Financial Statements.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Lawrenceville Plasma Physics, Inc. (D/B/A LPPFusion, Inc.) as of September 30, 2019, and the results of its operations and cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

**Notes to the Financial Statements**

Note 1 - Summary of significant accounting policies

Description of the company

Lawrenceville Plasma Physics, Inc., D/B/A LPPFusion, Inc. (the Company), incorporated in 2003, is a development-stage enterprise, researching and developing an economical, ecologically safe energy generation technology called Focus Fusion. This technology uses a Dense Plasma Focus device, fueled by hydrogen and boron, and converts energy directly into electricity.

The Company has already achieved major experimental milestones. Of the three factors that serve as an indicator of fusion energy yield (temperature, density and confinement time), the Company has so far achieved adequate temperature and confinement time for net energy. It plans to carry out scientific experiments to demonstrate the scientific feasibility of its approach and develop a prototype fusion generator. The Company expects that it will achieve profitable operation after that time primarily by selling licenses for the manufacture of the generators and from the royalties from those licenses.

Use of estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and to disclose contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Income taxes

Deferred income taxes reflect the temporary differences in reporting assets and liabilities for income and financial accounting purposes. These temporary differences arise primarily from the recognition of accelerated depreciation for income tax purposes and net operating loss carryforwards.

With few exceptions, the Company is no longer subject to the U.S. Federal, state or local income tax examinations by tax authorities for years before 2015.

Property and equipment

Property and equipment are stated at cost. Repairs and maintenance costs are expensed, while additions and betterments are capitalized. Depreciation is being provided for principally by the straight-line method over estimated useful lives of the related assets.

	<u>Estimated Useful Life</u>
Leasehold improvements	39 years
Machinery and equipment	10 years

**LAWRENCEVILLE PLASMA PHYSICS, INC.**  
**D/B/A LPPFusion, Inc.**  
**Notes to the Financial Statements**

Note 1 - Summary of significant accounting policies (continued)  
Revenue recognition  
Revenue consists of subscription payments and sponsored research agreement provided by a non-profit organization.

Note 2 - Concentration of credit risk  
The Company maintains its cash in bank deposit accounts, which may at times, exceed federally insured limits. At September 30, 2019, approximately \$0 was at risk.

Note 3 - Property and equipment  
Property and equipment at cost is summarized as follows:

Leasehold improvements	\$ 114,592
Machinery and equipment	1,021,805
Total property and equipment	<u>1,136,397</u>
Less: accumulated depreciation	<u>775,335</u>
Property and equipment, net	<u>\$ 361,062</u>

Depreciation expense for the year ended September 30, 2019 was \$84,904.

Note 4 - Deferred revenue  
Represents the unearned portion of a sponsored research agreement.

Note 5 - Patents  
The Company has been granted patents in the United States, Australia, Canada, China, and the European Union, and has an outstanding patent application in India.

Note 6 - Stock option plan  
Pursuant to the Company's Stock Option Plan, the Company will issue from time to time, to employees, officers, directors and consultants of the Company, options to purchase shares of the Company's common stock.

Options are granted with an exercise price equal to the fair value of the Company's stock at the date of the grant; the options generally vest immediately. The exercise price for the options range from \$60 to \$125. The options generally have ten-year contractual terms. The fair value of each option award was the market price of the stock as determined arbitrarily by the management of the Company on the date of the issuance. At September 30, 2019, there were approximately 5,688 options outstanding.

There was no compensation expense recorded for any of the options because management of the Company, using qualitative inputs, has determined the fair value to be negligible.

**LAWRENCEVILLE PLASMA PHYSICS, INC.**  
**D/B/A LPPFusion, Inc.**  
**Notes to the Financial Statements**

Note 7 - Operating leases

The Company leases space under a non-cancelable operating lease which expires January 2022. Rent is paid monthly. Rent expense for the year ended September 30, 2019 was \$25,199.

The future minimum operating rental payments in excess of one year are as follows:

2020	\$	23,000
2021		23,660
2022		7,960

Note 8 - Income taxes

The provision for income taxes for the year ended September 30, 2019 is as follows:

Current state taxes	\$	<u>500</u>
---------------------	----	------------

As of September 30, 2019, the Company has available a cumulative net operating loss carryforward of \$7,164,437 which begins to expire in 2026 and a book to tax temporary difference of \$143,000 arising from the recognition of accelerated depreciation for income tax purposes. Because of the more likely than not assessment that the deferred tax asset will not be used, an allowance equal to the amount of the deferred tax asset has been recorded.

Note 9 - Risks and uncertainties

The Company's activities are subject to significant risks and uncertainties, including failing to secure additional funding to operationalize the Company's current technology before another company develops similar technology.

Note 10 - Change in Accounting Standards

ASU 2014-09: The Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-09, *Revenue from Contracts with Customers*. This ASU as modified by ASU 2015-14, changes the timing of recorded revenue for services performed. This ASU will be effective to the Company in the year ending September 30, 2020. Management has not completed its assessment of the impact of this change.

ASU 2016-02: FASB issued ASU 2016-02, *Leases*. This ASU recognizes as a liability, non-cancellable lease. The liability is offset by an amortizable asset called a right to use. This ASU will be effective to the Company in the year ending September 30, 2022. Management has not completed its assessment of the impact of this change.

Note 11 - Subsequent events

The Company's management has determined that no material events or transactions occurred subsequent to September 30, 2019 and through January 21, 2020, the date of the Company's financial statement issuance, which require additional disclosure in the Company's financial statements.
